Education

VIT Bhopal University, Bhopal

November 2024 – Present

B.Tech in Computer Science and Engineering

CGPA: 8.40 / 10.0 (through Semester 6)

Manav Rachna International School, Faridabad

CBSE Class 12th

Completed

Technical Skills

Languages: C++, Python, JavaScript, Java, HTML, CSS

Frontend Development: React, Next.js, Tailwind CSS, Three.js, React Three Fiber, GSAP, Lenis

Backend & APIs: Node.js, Express.js, REST APIs, JSON

Databases: Supabase (PostgreSQL), Firebase

AI & APIs: Google Gemini API, YouTube Data API, Reddit API, AI-Assisted Development

Computer Science Fundamentals: Data Structures & Algorithms, Object-Oriented Programming, Database Management Systems (DBMS), Computer Networks (CN), Operating Systems (OS)

Version Control/Developer Tools: Git, GitHub, VS Code, Cursor, Vercel, Netlify, Render, Cloudflare Turnstile

Projects

VoxTube — AI-Powered YouTube Comment Analyzer (React, Node.js, Express, Supabase, Gemini API)

[GitHub](#)

- Built an AI-driven comment analysis tool using the Gemini API for sentiment analysis, smart summaries, and spam detection.
- Integrated YouTube Data API and Reddit API to enable video search and cross-platform discussion analysis.
- Secured backend with rate limiting, Helmet, CORS protection, Cloudflare Turnstile CAPTCHA, and Supabase Row Level Security.

3D Interactive Developer Portfolio (Next.js, TypeScript, Three.js, React Three Fiber, GSAP, Lenis)

[GitHub](#)

- Developed an interactive 3D portfolio using Three.js and React Three Fiber with smooth GSAP-powered animations.
- Implemented a responsive, modern UI with interactive project cards and coding profile integration.
- Used Lenis for smooth scrolling and Tailwind CSS for a clean, consistent design system.

360° Interactive Campus Tour (Marzipano, Pannellum, Unity, JavaScript)

[GitHub](#)

- Built a 360-degree panorama viewer with interactive hotspots for seamless campus navigation.
- Designed smooth scene transitions and location-based navigation for an immersive, VR-ready experience.

Agricycle — Agricultural Waste Management Platform (Hackathon Project)

[GitHub](#)

- Designed a sustainability dashboard for tracking agricultural waste and compost access.
- Built smart irrigation alerts and impact visualization tools to support waste management decisions.

Extracurriculars

- Reached the final rounds of Design2Code 2.0 Frontend Hackathon and the Dawn of Code Hackathon.
- Participated in the Bharatiya Antariksh Hackathon 2026.
- Actively practices competitive programming on LeetCode and Codeforces.

Certifications

- Machine Learning A-Z [2026]: ML, DL, AI with AWS, Python & R — Udemy
- Introduction to Generative AI — Google
- Google AI Essentials — Google
- Intro to AR/VR/MR/XR: Technologies, Applications & Issues — University of Michigan
- Introduction to Internet of Things — NPTEL (Skill India Online)
- VITYARTHI Open Source Certificate — Vellore Institute of Technology (VIT)
- MATLAB Certified — MATLAB Coding
